

De Klerck Engineering – EPB-reporter

About the role:

As an EPB reporter, you are responsible for preparing energy performance reports for medium to large construction projects and advising clients on energy-saving measures. You work closely with designers and project managers to ensure that all projects comply with applicable EPB regulations.

What do you bring to the table?

- A bachelor's or master's degree, or equivalent experience.
- Experience as an EPB reporter is a plus, but motivated starters are also welcome!
- Eager to learn and willing to further specialize in EPB regulations and associated software.
- Attention to detail and structured work for efficient collaboration with colleagues and clients.
- Proficient in common software packages, knowledge of AutoCAD and/or Revit is a plus.

What's in it for you?

- A warm welcome in our family business, where you will quickly feel at home in a driven, fun, and enthusiastic team focused on a sustainable future.
- A mentor guides you in the first weeks and months, so you quickly become familiar with all formal and informal aspects.
- Great autonomy and the opportunity to take on responsibilities.
- Various development opportunities and training, both internally in our own SDK Academy and externally.
- Comfortable working conditions, a competitive salary package with additional benefits such as meal vouchers and a cafeteria plan.
- Great career advancement opportunities.

But since a job description never tells all, let us hear from you soon so we can schedule an introductory meeting!
