

De Klerck Engineering – Structural Draftsman

About the role:

As a Structural Draftsman, you are responsible for developing detailed stability plans and drawings. You work closely with engineers and project managers to ensure that our designs meet the highest standards of quality and safety, providing solutions for each of our projects.

Tasks and responsibilities:

- You translate stability studies into practical and detailed structural plans, formwork plans, and reinforcement plans. Additionally, you prepare schedules.
- You conduct accurate checks on detailed drawings provided by third parties to ensure they meet project requirements and quality standards.
- You prepare both detailed and summary measurement statements, which are essential for the planning and execution of construction projects.

What do you bring to the table?

- Preferably, you have a master's or bachelor's degree in civil or industrial engineering and extensive knowledge of standards and laws related to stability.
- Previous experience at a consultancy firm is a significant plus.
- You are proficient in using MS Office, AutoCAD 2D/3D, and Tekla.
- You are proactive, analytical, to-the-point, and have a keen eye for quality and deadlines.
- You enjoy collaborating with others and contribute to a pleasant and positive working atmosphere.
- 3 to 5 years of experience in a similar job position

What's in it for you?

- A warm welcome in our family business, where you will quickly feel at home in a driven and enthusiastic team focused on a sustainable future.
- A mentor guides you in the first weeks and months, so you quickly become familiar with all formal and informal aspects.
- Ample autonomy and the opportunity to take on responsibilities.
- Various development opportunities and training, both internally in our own SDK Academy and externally.
- Comfortable working conditions, a competitive salary package with additional benefits such as meal vouchers and a cafeteria plan.
- Great career advancement opportunities.

But since a job description never tells all, let us hear from you soon so we can schedule an introductory meeting!
