

De Klerck Engineering – Sustainability Expert

About the role:

As a **Sustainability Expert**, you play a crucial role in developing and implementing sustainable strategies within our projects. You work closely with our engineering teams to ensure that sustainability is central to all our designs and executions.

Responsibilities:

- Develop sustainable concepts and solutions for projects in electricity, HVAC, and stability.
- Conduct sustainability evaluations and analyses.
- Advise clients and project teams on energy-efficient and environmentally friendly installations and techniques.
- Contribute to achieving sustainability objectives and certifications.
- Stay informed about the latest developments and innovations in the field of sustainability.
- Familiarize yourself with the Hysopt software.

What you bring:

- A bachelor's or master's degree in a relevant technical field (e.g., environmental technology, energy engineering, sustainable development).
- At least 3 years of experience in a similar role.
- In-depth knowledge of sustainable techniques and technologies within the construction sector.
- Strong analytical and problem-solving skills.
- Excellent communication skills and the ability to collaborate effectively in multidisciplinary teams.
- Experience with sustainability certifications (such as BREEAM, LEED) is a plus, as well as the willingness to undergo further training to become a BREEAM assessor.

What we offer you:

- A warm welcome in our family business, where you will quickly feel at home. This in a driven and enthusiastic team, focused on a sustainable future.
- A mentor will guide you during the first weeks and months, so you quickly become familiar with all formal and informal aspects.
- Great autonomy and responsibility for your own projects.
- Various development opportunities and training, both internally in our own SDK Academy and externally.
- Comfortable working conditions with quality IT and office equipment, a competitive salary package with extra-legal benefits such as meal vouchers and a cafeteria plan, also the possibility of a company car.
- Great career advancement opportunities in an ambitious environment in full growth.
